

HELP FUKUSHIMA FALLOUT AWARENESS NETWORK PROTECT YOUR FOOD!

***“Fukushima Fallout Awareness Network (FFAN) is the only group paying close attention to the drift of radioactivity from Fukushima into the world’s food supply. This is a big, serious problem that’s only going to grow worse as time goes on. Thanks to FFAN for doing this nitty-gritty work to protect children everywhere!” —Dr. Peter Montague
Founder & Director of Environmental Research Foundation***
